- Success Stories

Turkey as a strong production and engineering hub for global automotive value chain

Turkish automotive industry	<ul> <li>High level of integration into global automotive industry</li> <li>14th major automotive producer in the World with 75% average export rate</li> <li>Vehicles with Turkish origin has the leading position among the vehicles coming outside of EU</li> <li>Production, export, and engineering hub of global brands for international markets</li> </ul>
Suppliers and engineering in the industry	<ul> <li>Quality products with high export rates</li> <li>Hundreds of Tier 1 companies working directly with OEMs</li> <li>Center of excellence in automotive engineering and R&amp;D in which the new technologies are developed</li> </ul>
Growth drivers in Turkey	<ul> <li>Strong macroeconomic growth with increasing income per capita and a bourgeoning middle-class</li> <li>Favorable demographics with a dynamic, young, and skilled labor force supporting the industry</li> <li>Cost-competitive labor and energy prices</li> <li>Strong government support through incentives</li> </ul>
Strong international presence	<ul> <li>Giants of global autmotive value chain benefit from Turkey's location, cost, and competence advantages</li> <li>Because of their profitable business in the country, companies in Turkey continue to invest in the country's future</li> </ul>

#### Production

Turkey has become an important part of global value chain of international OEMs in the last 25 years

Source: Automotive Manufacturers Association, Automotive World Production Databook

#### **OEMs in Turkey**

#### The engagement of 15 OEMs is not limited to production only. They are also benefiting from the engineering skills of Turkey

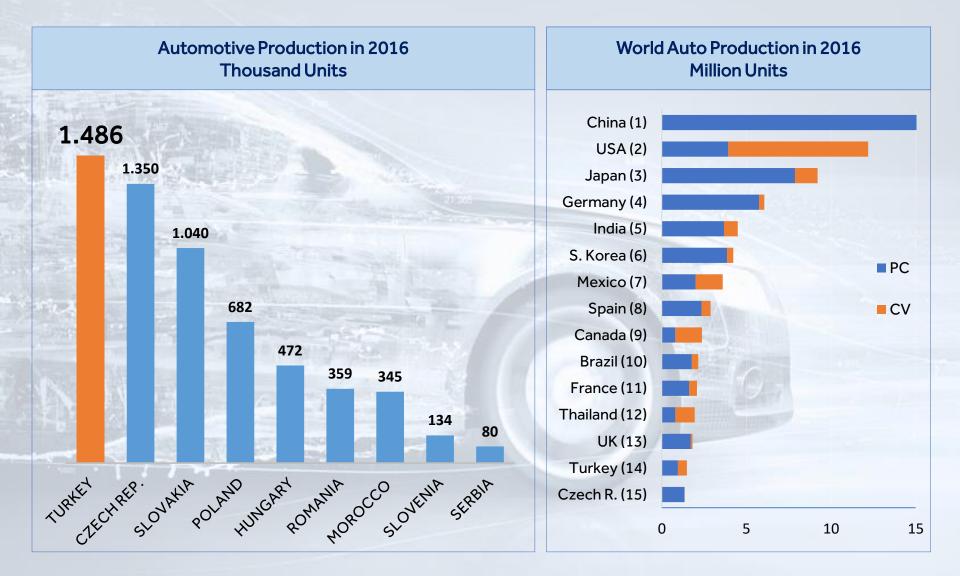

- 9 R&D centres are supporting not only the local operations but also the operations in other plants of mother companies.
- Ford Otosan's R&D department is one of Ford's 3 largest global R&D centres.
- R&D centre in Bursa is the only centre of Fiat outside of Italy serving the European market.
- For Courier, Ford's new light commercial vehicle, the Yeniköy plant is the single production center in the world.
- Toyota C-HR Hybrid is produced in Turkey for World markets
- Daimler R&D is the centre of competence for some parts and carrying global responsibility.
- With more than 40 thousand employee, automotive OEMs is one of the major employers in manufacturing industry.

## Turkey in CEE & the World

Turkey, the leader of CEE in vehicle production, climbs up higher ranks in World Auto Production list as well

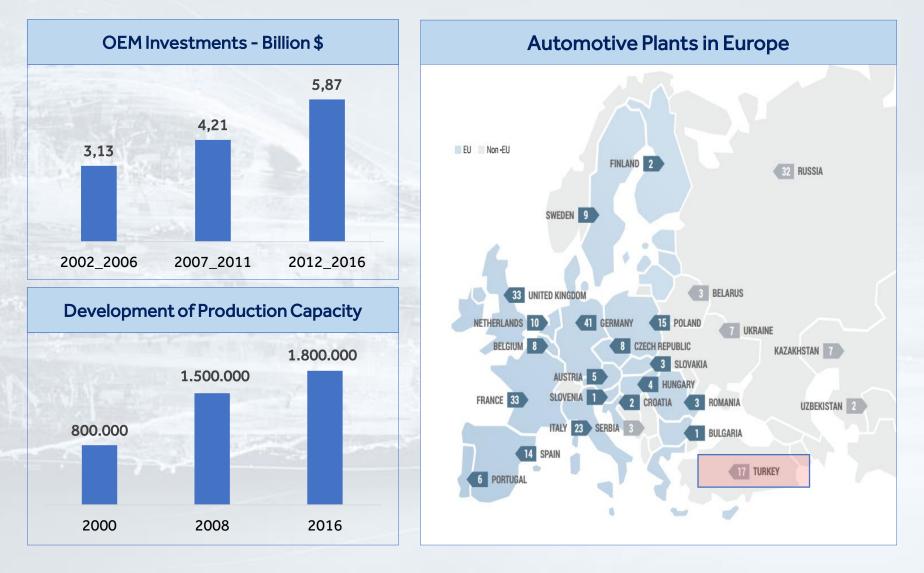

Investments

With over \$13 Billion invested between 2002-2016, OEMs developed their R&D skills as well as manufacturing capabilities

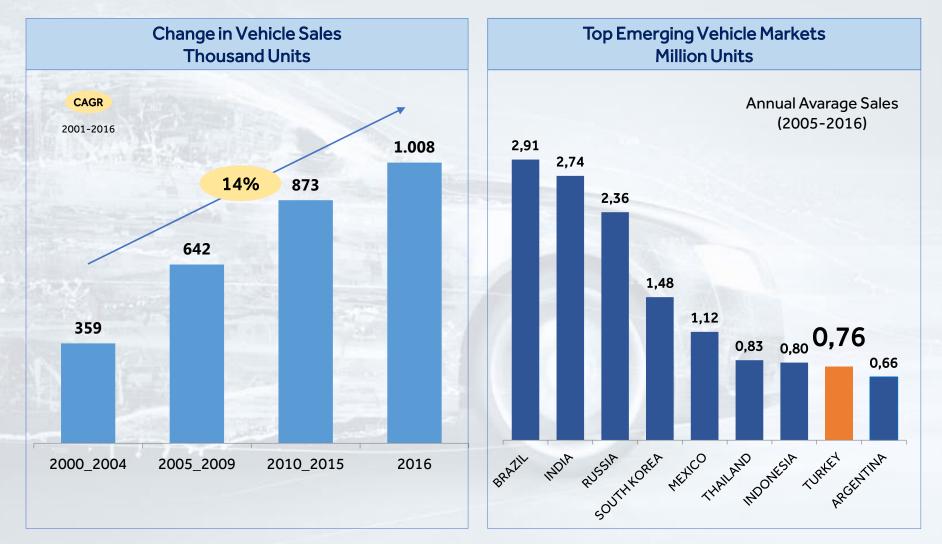

Source: Automotive Manufacturers Association of Turkey, ACEA

By the end of 2016 with the sales of over 1 million vehicle Turkey had record level of sales

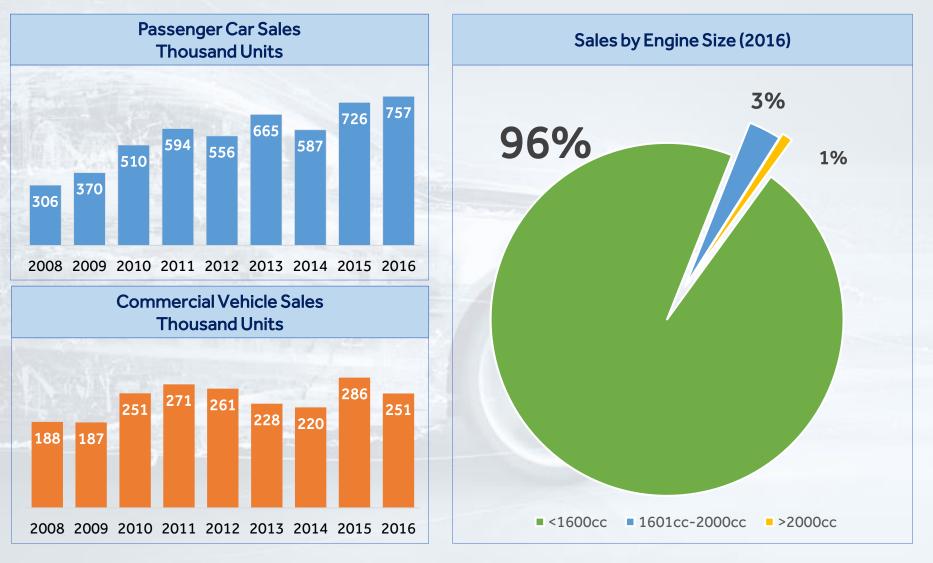

Source: Automotive Distributors Association of Turkey, OICA

Market

Consumer preferences of Turkish drivers seem to shift towards passenger cars. In the meantime, small engine cars are dominating the market

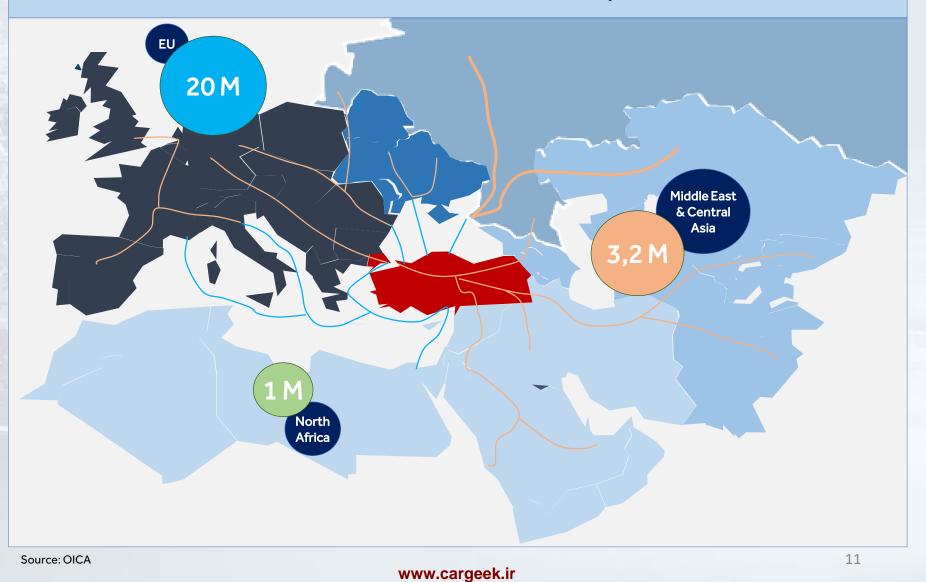

The markets around Turkey – From Western Europe to Central Asia have a combined annual sales volume of over 24 million vehicles (2016).

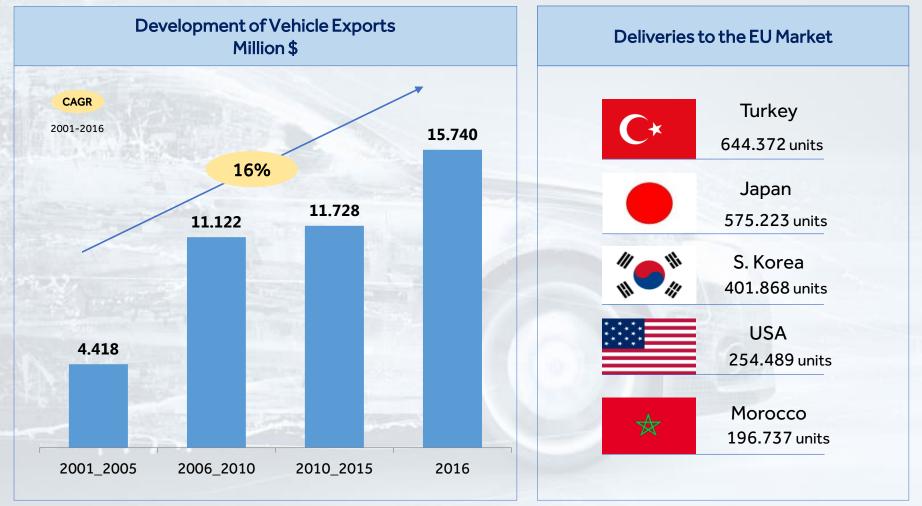

#### Market of 24 Million Vehicles: from Western Europe to Central Asia

Turkey is the largest export base of global OEMs in the region outside of EU with an average export rate of 75%

- Success Stories

#### Component Manufacturing

400+ Tier 1 suppliers working directly with OEMs contribute much on the high localization rates of the cars manufactured in the country

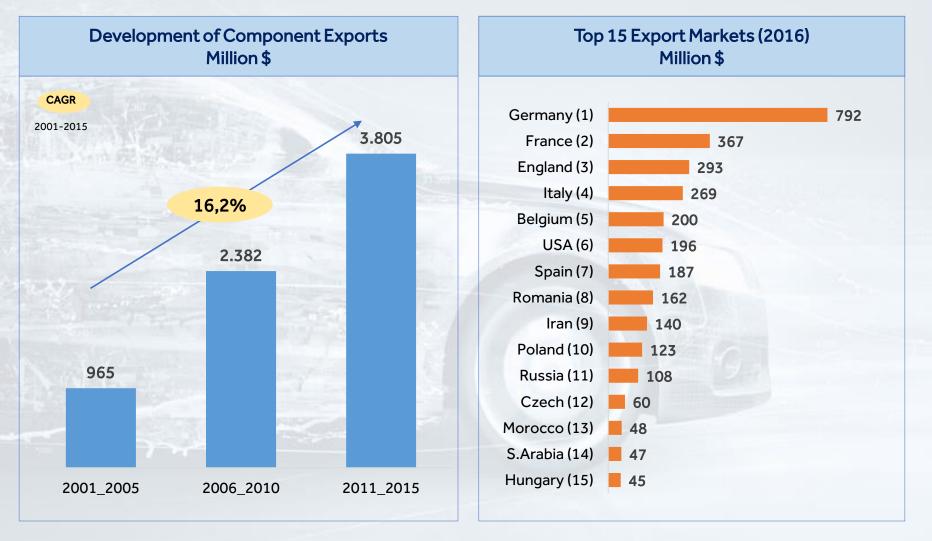

*# of suppliers in the city* 

#### Component Exports

In line with global developments, component exports have invreased by 16,2% CAGR over the past 15 years toward diversified markets all around the World

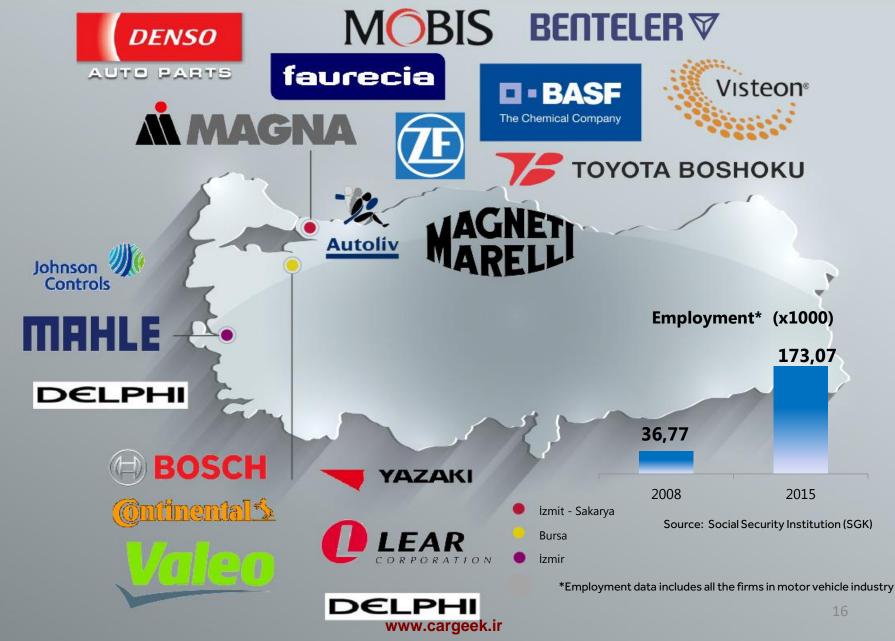

Source: Turkish Statistical Institute (TurkStat)

**Global Suppliers** There are more than 250 global suppliers using Turkey as a production base. 28 of them are among the largest 50 global suppliers

#### **Major Suppliers**

### 10 automotive suppliers with USD 200 Million+ revenue in 2016...

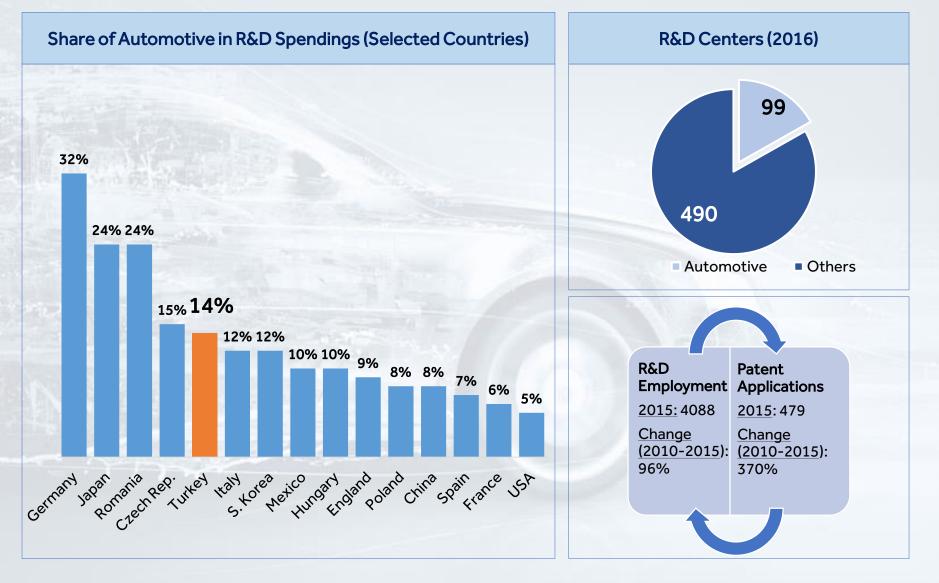

<u>Rank</u>	Major Suppliers	<u>Products</u>	2016 Revenue (Million \$)
1	<b>BOSCH</b>	Brake systems, boosters, power limiters & regulators, repair kids, brake shoes, wheel brake cylinders, drum & disk brakes	901
2		Tyres, battery, covering	458
3		Wheels	336
4	YAZAKI	Electrical and electronics components	330
5		Wheels	309
6	GOODSYEAR.	Tyres	308,9
7	DELPHI	Cables, electrical/electronic architecture systems and components, fuel pumps, fuel injectors, nozzles, valves	298
8	Autoliv	Steering wheels, seat belt, air bags	286
9	RALIP VE OTO VAN SANAVIL PAZARLAMA VE VICARET A.S.	Mold, chassis systems, lock technologies, security traverse	238
10	OTOMOTIV SISTEMLERI A.Ş.	Drivetrain components, engine components	224

## Industry & Education

Aller-

Strong collaboration between industry and education institutions...

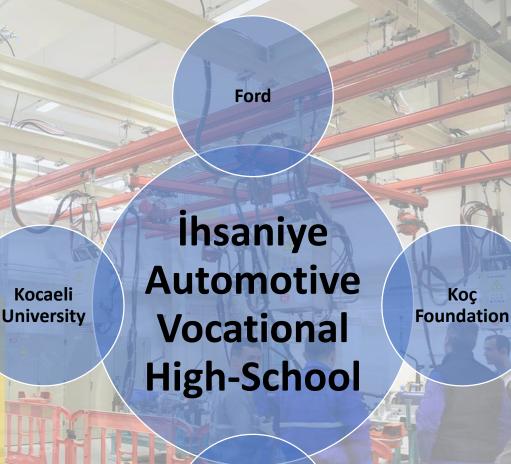

#### İhsaniye Automotive Vocational High School

In 2014, a 2-year automotive vocational high school under Kocaeli University was established as a result of strong cooperation of the university, OEM, a foundation, and local municipality.

Now, the high-school provides the company and whole industry with qualified employees having strong capabilities.

There are many examples of that kind of collaboration in Turkish automotive industry. Qualified employees, qualified products...

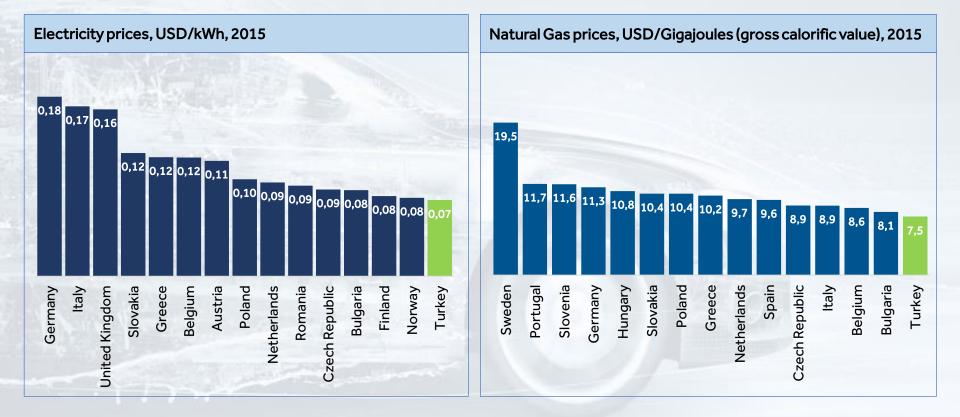

Local Municipality

#### Competitive Energy prices

Electricity and natural gas prices in Turkey have been cost competitive in comparison with the EU...

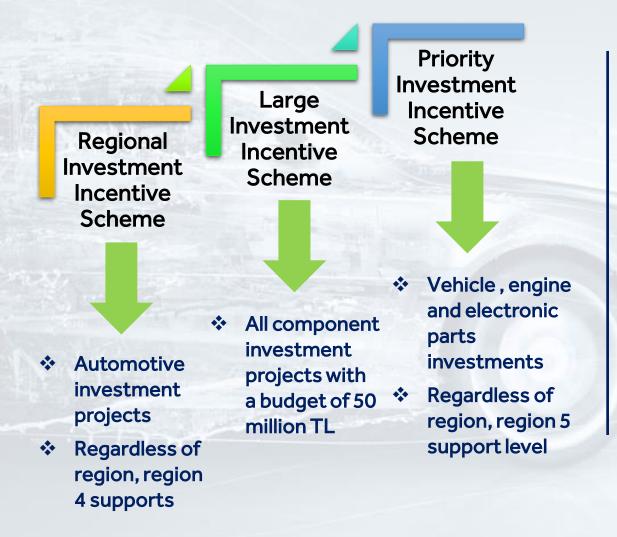

1 Peer countries include Romania, Slovenia, Hungary, Czech Republic, Poland Source: Eurostat, All taxes and levies included

## Lucrative Incentives

Automotive investments in manufacturing and R&D can benefit from various lucrative incentives...

- VAT Exemption
- Custom Duty
   Exemption
- ✓ Tax Deduction
- Social Security
   Premium Support
   (Employer's Share)
- ✓ Land Allocation
  - Interest Support

#### **R&D Supports**

Automotive investments in manufacturing and R&D can benefit from various lucrative incentives...

R&D Law	Technoparks	Project Base Support
Minimizing the cost of in-house R&D operations of companies *Deduction of R&D spending from tax *Tax support to minimize the cost of personel	Easing innovation by providing the right eco system *Minimizing the cost of doing R&D *Best platform for public private collaboration *Ready and cost effective infrastructure	R&D projects do enjoy a support rate of 60%+. *Overhead expenses, *Travel expenses *Expenses for equipment and tools, software, publications *Supplies and consumables *Purchase of consulting services

#### **Success stories**

## Turkey as an international center of excellence for automotive giants

- Has total capacity of production of 415.000 cars per year
- Commercial vehicle manufacturing hub of Ford Europe
- Has Turkey's largest R&D center located in a single campus in Istanbul
- Exports worth \$ 3.8 billion in 2016 toward 83 countries
- One of the 3 largest R&D center of Ford Global

- One of the biggest factory of Renault with annual production capacity of 360.000 cars and 750.000 engines
- Total exports in last 15 years exceed \$ 30 billion
- Flagship company in passenger car production for years
- 6300+ employees, almost 1500 of which is white-collar

### RENAULT

- The facility was established in 1968
- Has the capacity of 450.000 vehicles per year
- Employs more than 7000 employees
- Only factory in the country which manufactures both passenger and light commercial vehicles
- R&D center in Bursa is the only center of Fiat outside Italy serving the European market

HYUNDAI

- Stepped into Turkish market in 1990
- Started to manufacture in 1997 in Izmit factory
- Has production capacity of 245.000 vehicles annually
- 3000+ employees
- Positioned as the manufacturing hub for European markets

- Invested almost \$2 billion since the entry to the country
- Over 3500 staff, 280.000 annual production capacity
- Almost 85% of the production exported to more than 50 countries
- Started the production of first hybrid vehicle in Turkey, C-HR, with an investment worth EUR 350 million

- Operational in Turkey since 1992
- Production of Civic model started in 1997
- Izmit factory, 50.000 annual production capacity with over 1000 employees
- Invested almost \$ 500 million since the beginning
- Exports 'Civic' to 46 countries throughout the World

- Operational since 1967
- First production in 1968, first export in 1970
- Has two facilities: Bus factory in Istanbul, Truck factory in Aksaray
- Almost EUR 1 billion total investment with 6000 employees
- The German giant began operations in Turkey in 1966
- MAN's first factory outside Germany
- Largest integrated bus company of MAN Global
- Has 2000 annual bus production capacity, 2000+ employees
- Production base of premium Neoplan bus brand Exports to 41 countries including European ones.

#### Success stories

#### Strong international presence in Turkey...

Attached to the Prime Ministry

Private sector approach with public sector capabilities

Acting as your solution partner;

#### **OUR SERVICES**

ISPAT assists investors before, during and after their entry in Turkey, providing them with professional consulting services including but are not limited to:

- ✓ General and customized business information
  - ✓ Sectoral analysis and reports
- ✓ Site selection support to find appropriate location/land for your investment
- ✓ Arrangements of meetings with governmental bodies and other stakeholders
  - ✓ Matchmaking with local partners and establishing business linkages
    - ✓ Facilitating your investment at all stages
      - ✓ Aftercare Services
      - ✓ Project Launch Services
      - ✓ Facilitating your visit to Turkey
